Mathematics

<i>Durante T., Cardone G., Nazarov S. A.</i> Modeling junctions of plates and rods by means of self-adjoint extensions	3
<i>Ermakov S. M.</i> Construction of parallel algorithms in problems of applied mathematics	15
<i>Zuber I. E., Gelig A. Kh.</i> Stability of uncertain systems	23
<i>Kabardov M. M.</i> Geometric interpretation of the Euler—Knopp summation method in the Laplace transform inversion problem	31
<i>Krivulin N. K.</i> Evaluation of the Lyapunov exponent for generalized linear systems with the exponential distribution of elements of a transition matrix	37
<i>Krym V. R.</i> The Euler—Lagrange method as formulated by Pontryagin	48
<i>Lebedinskaya N. A., Lebedinski D. M.</i> Triangulation refinement by the edge split operation	59
<i>Maz'ya V. G., Poborchii S. V.</i> Unique solvability of the integral equation for a harmonic potential of a simple layer on the boundary of the domain with a peak	63
<i>Miroshin R. N.</i> On the solution of the Chapman—Kolmogorov integral equation represented as a series	74
<i>Stoyanova S. B.</i> The invariant cubature formula of ninth degree for a hypercube	79
<i>Kholshevnikov K. V., Shaidulin V. Sh.</i> Asymptotics of the uniform norm of associated Legendre functions P_n^k (the case $k \ll n$)	86

Mechanics

<i>Lebedev A. V.</i> Buckling of plates weakened with holes	94
<i>Memnonov V. P., Morozov A. O.</i> An experimental estimation of statistical characteristics for the surface roughness	100
<i>Morozov N. F., Tovstik P. E.</i> The rod dynamics under longitudinal impact	105
<i>Filippov S. B.</i> Buckling of an annular plate subjected to a radial tension along the inner circle	112
<i>Yufereva L. M., Lavrov Yu. A.</i> The thermo-mechanical field in multi-layered plate with internal sources	122

Astronomy

<i>Baluev R. V.</i> On the detection of periodic components in observational data	129
