

CONTENTS

Vestnik of St.Petersburg University. Series 1. Volume 2 (60). Issue 1. 2015

MATHEMATICS

<i>Antonov A. A.</i> Quasi Monte Carlo integration algorithm with a posteriori error analysis	3
<i>Basov V. V., Mikhlin L. S.</i> Generalized normal forms of ode systems with unperturbed part $(x_2, \pm x_1^{2n-1})$	14
<i>Begun N. A.</i> Perturbations of weakly hyperbolic invariant sets of two-dimension periodic systems	23
<i>Vallander S. S.</i> Some properties of exact ruin probability for Erlang-distributed claims	34
<i>Il'in Yu. A.</i> On C^1 -equivalence of essentially nonlinear system of differential equations near the asymptotically stable equilibrium point	37
<i>Neuzorov V. B.</i> An analogue of the F^α -scheme for discrete distributions	48
<i>Reitmann V., Skopinov S. N.</i> On a finite time interval stability for the one-dimensional microwave heating problem	54
<i>Frolov A. N.</i> On probabilities of moderate deviations for combinatorial sums	60
<i>Shpilev P. V.</i> The theorem of equivalence for singular L -optimal designs	68

MECHANICS

<i>Arutyunyan R. A.</i> Rheology of elastic-viscous aging media	75
<i>Babarykin K. V.</i> Transonic flow around the airfoil with aileron at a positive attack angle	84
<i>Bauer S. M., Smirnov A. L.</i> Deformations of the orthotropic spherical layer under normal pressure	91
<i>Bogatko V. I., Kolton G. A., Potekhina E. A.</i> Semi-inverse method for the solution of the three-dimensional problem of hypersonic flow past a thin wing	98
<i>Voronin A. V., Semenov B. N., Sudenkov Yu. V.</i> Fracture mechanism of tungsten as a result of heat loading when by plasma jet impact	106
<i>Indeitsev D. A., Kuklin T. S., Mochalova Yu. A.</i> Localization in Bernoulli—Euler beam on inhomogeneous elastic foundation	112
<i>Kolesnikov E. K., Klyushnicov G. N.</i> The problem concerning the guiding center movement in the superposition of dipole magnetic field and uniform magnetic field	123

ASTRONOMY

<i>Martyusheva A. A., Petrov N. A., Polyakhova E. N.</i> Solar radiation pressure effects on asteroid motions, including near-Earth objects	135
<i>Sokolov L. L., Kuteeva G. A.</i> Prediction of possible collisions of asteroid Apophis after refinement of its orbit	148
<i>Kholshchevnikov K. V., Shaïdulin V. Sh.</i> On the gravitational potential of a segment of a sphere	157

CHRONICLE

On the 70 th anniversary of A. I. Shepelyavy	164
In memory Mikhail Konstantinovich Chirkov	166
Sessions of Section of the House of scientists of the Russian Academy of Sciences on the theoretical mechanics of prof. N. N. Poljakhov November 26, 2014	122
